Competitive Landscape

Key insights

- Market share fluctuates as easily as the wind changes direction.
- Currently, it is steadily dominated by four major players.
- Bajaj holds the number one position at 26%.TVS ranks second at 22%, while Ola and Ather alternately vie for the second spot.
- The market is extremely volatile and susceptible to new entrants.

TRUSTED INCUMBENT — TVS

Market Insights & Consumer Trends

Primary Insights

EXPLOSIVE TRAJECTORY

15% CAGR 2025-35

$3.2B

$0.7B

Awareness

LOW

Only 38 % of fleet operators and 27 % of SMB owners are aware of reliable Indian-made EV fleet options.

POLICY TAILWIND

Recent reductions in FAME-II subsidies have negatively impacted the rate this year, but never the less it's still positive and predicted to raise rapidly.

Decision Making Factors

1. Economic Factors (The "Wallet)

- Total Cost of Ownership (TCO) & Savings
  - Perceived Economic Benefit
  - Running Cost Savings
- Long-Term Financials
  - Product Warranty
- Upfont Purchase Price
  - Running Cost Savings (FAME & State)
- Battery Life & Replacement Cost Cost
- Government Subsicies (FAME & State)
- Financing Availability

2. Product & Performance (The "Vehicle)

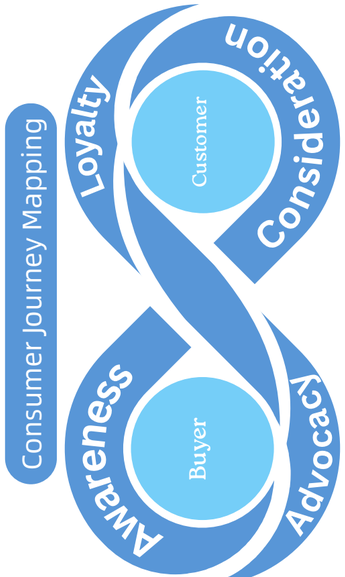

- Battery & Range (The #1 Pain Point)
  - Battery Type & Capacity
- Portable Battery
- Charging
  - Charging Time
  - Charging Convenience
  - Remolable/Portable Battery
- Performance & Durability
  - Top 3 Features
  - Safety Features
- Safety & Technology
  - Build Quality & Durability
  - Smart Features

3. Infrarstructure & Ecosytem (The "Support)

- After-Sales Service
  - Service Network Proximity
  - Spare Part Availability
- Charging Infrastucture
  - Spare Featurs
  - Home Charging

4. Brand & Social Factors (The "Image)

- Brand Perception
  - Brand Reputation
  - Online & Peer Rework
  - Design &Assletics
- Social Proof & Values
  - Online & Peer Reviews
  - Environmental Concern (Secondary Driver)

Diplos Max+ USP

THE DIPLOS MAX+ IS POSITIONED AS THE "TOUGH & LOYAL SIDEKICK FOR INDIA'S EVERYDAY HEROES," A SCOOTER THAT DIFFERENTIATES ITSELF THROUGH REAL-WORLD PERFORMANCE, PROVEN DURABILITY, AND RUGGED CAPABILITY.

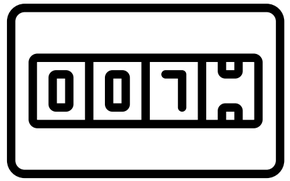

- **Rugged Durability**
- **Range**
- **Torque**
- **Haulage**

How Diplos Max+ Solves User Pain Points

REMOVES FUEL COSTS COMPLETELY

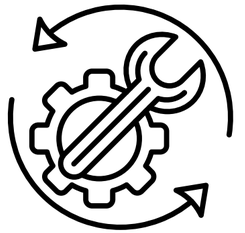

ELIMINATES RANGE ANXIETY

INDUSTRY GRADE FAST CHARGING

BUILT FOR LONG-TERM DURABILITY

APPEALS TO DESIGN-CONSCIOUS USERS

Arjun Verma | Side-Hustler (B2C)

Arjun is a pragmatic part-time delivery driver (Rapido, Zomato).. He needs a reliable, low-cost scooter with a long range to combat high fuel costs and eliminate downtime, ensuring every shift is profitable and efficient. A vehicle with great durability that can keep up with his regular rides.

> **I need a tough scooter that works as hard as I do and helps me maximize my earnings every single shift.**

- **Tests** various scooters before making a Purchase
- **Consults close friends** and family for insights.

Pain Points

Fuel cost inflation (+12 % YoY)

Drivers reluctant to shift to EVs due to charging downtime.

Priya Naik | Kirana Shop Owner (B2B)

Priya runs a busy **neighborhood grocery** that offers same-day home delivery. Her scooter is essential for **stock pickups** and **customer drops**. She spends **~₹6000/month** on petrol (**20 %** of her profits) and worries about **service costs** and **delays**. She needs a **durable, low-cost EV** with **easy** financing and **nearby** service support.

> **I don't mind a simple design I just need a scooter that carries my goods and starts every morning.**

- Consults **close friends** and family for insights.
- Watches **regional YouTube reviews** before purchase decisions.

Pain Points

Skepticism about resale value vs petrol scooters.

No local EV service centers in Tier-2 areas.

Sudeep Reddy | Sporty Employee (B2C)

Sudeep uses his scooter for both **work commutes** and **family errands** — visiting clients by day and grocery runs by evening. He's **practical yet image-conscious:** he wants a scooter that **looks cool, sporty, tough, and comfortable,** not just cheap to run. The vehicle is a reflection of his **success**, responsibility and **adventurous** nature.

> **I want something that looks good in the office parking lot and still handles my family's daily runs reliable, stylish, and worth every rupee.**

- **Rigorously Researches** vehicle specifications over the internet
- **Tests** various scooters before making a Purchase.

Pain Points

Affordable EVs look basic

Low Torque on EVs

Persona	TCO*	Durability	Eco-Friendly	Range	Utility (Haulage/Function)	Sporty Aesthetics	Brand Trust

Theft & tow detection alerts

Advanced thermal management

Safety features via app

Brand VALUE

Deepa Binosh | The "Do-It-All" Lady

A 32-year-old Marketing Manager and mother to a 6-year-old. She juggles a 15 km daily commute, school drop-offs, and after-school activities, all while managing household errands.She needs a single, safe, and high-utility EV that can replace her 5-year-old ICE scooter.

"Secure storage and a confident ride,it's the foundation of my daily life"

- An Emotional Buy. She will talk to friends, discuss with Family,read reviews
- The final decision is influenced by her test ride experience

PAIN POINTS

Stability Anxiety

Scooter's limited storage and tech absence

Rising fuel prices threaten her commute budget.

Ananya Hegde | The Young Professional

Ananya, 24, a junior "executive" who just moved to Pune.Her commute is a source of anxiety. She uses Public Transport most days,and Hails Cabs sometimes which is not "cost-effective". Her work often ends late, forcing her to travel back alone at night.

My commute should empower my career, not compromise my safety

- an active social media user, looks for reviews on YouTube,Instagaram,etc.
- "Ads,Financial Incentive and "peer" recommendations further increase her interest.

PAIN POINTS

Fear of learning, slow transit, and costly ride-hailing are problematic.

Traveling alone at night worries her and her parents.

Kapoor Family | The Young Professional

The Kapoor family consists of Rajesh (48)Deepa (45),Rohan (19). Deepa' runs errands on an old scooter that feels unstable and has "insufficient storage." Rohan is starting college (10-15km away) ." Rajesh is very concerned about the "safety" of giving a scooter to a "beginner" and "worries" about theft on campus.

I need a dependable vehicle equipped with safety features that provide peace of mind when my family is using it.

- Rajesh and Deepa consult friends and family. Rohan checks reviews from peers
- Safety and practicality are crucial in determining test ride success.

PAIN POINTS

Missing a clear, affordable, versatile, and stable electric scooter.

Worried about son's safety, seeking to secure him and scooter.

Cost Efficiency	●●○○○	●●●●○	●●●○○	●●●●●
Effectiveness	●●●●○	●●●○○	●●●●○	●●●●●
Ease of Implementation	●●●●●	●●●○○	●●○○○	●●●○○
Brand Value Coherence	●●○○○	●●●●●	●●●●○	●●●●●

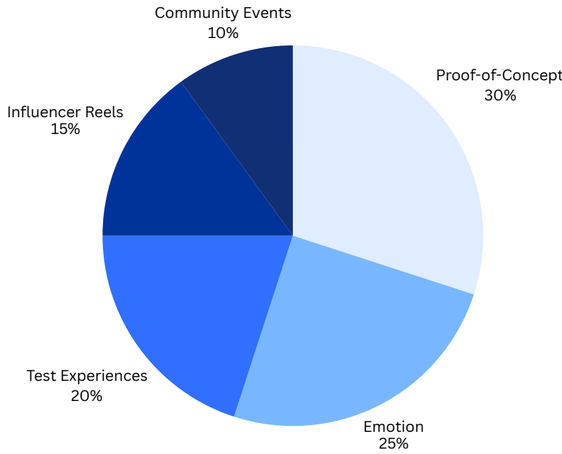

Strategy Validation

70% OF SHOPPERS PREFER A TRANSPARENT AND RELATABLE BRAND AS TO AN OVER PROMISING ONE

87% OF SHOPPERS ADMIT THAT THEY WERE INSPIRED BY AN INFLUENCER TO MAKE PURCHASE

90% OF BUYERS MAKE THEIR FIRST CUT BASED ON A CORE FUNCTION, SIDELINING FORM AND LUXURY AS SECONDARY "TIE-BREAKER" CONCERNS

Recommended split of marketing efforts

Scooter-wise Immediate GTM Targeted Strategy

Diplos Max+

POSITIONTING

The Tough & Loyal Sidekick

GETS IT DONE

CORE NARRATIVE: PROOF-BASED MARKETING

FLAGSHIP CAMPAIGN

Rugged Durability | **Range** | **Torque** | **Haulage**

These campaigns take a **radical** approach of **making a statement** through **proof of concept** both **online** and **offline**. Positioning Diplos Max+ as the Face.

KEY ACTIVATIONS

Strategy	Adventure/Sporty Demo Videos	On-Ground Events
Effectiveness		
Cost Efficiency		
Ease of Implementation		
Time to Mature		

EXAMPLES

- Host Dirt Track Racing
- Sponsored Sport Events
- Parking Drift Nights
- Biker's parade, Community Road Trips etc.

nfirst

POSITIONTING

The Smart, Trusted companion for your day.

Change your vibe

(Your Journey, Our Drive)

CORE NARRATIVE: EMOTION AND VALUE

FLAGSHIP CAMPAIGN

Style & Comfort | **Smart Safety Features** | **Hybrid Stability**

The **online** campaign showcases how Nfirst **enhances their Daily Life**. **Offline** activities allows customers to **experience and test the features** we offer.

KEY ACTIVATIONS

Strategy	Documentary style Content	Offline experience
Effectiveness		
Cost Efficiency		
Ease of Implementation		
Time to Mature		

EXAMPLES

- Test Drives:: At tech parks, colleges, communities, Uphill and Pothole Test Tracks for experience
- Special Events:Safety parades, environmental day activities, and women's day celebrations.

- In Real-Life Stories
- Engineering Reliability Series
- Behind the Door Video: The Vision and Mission

The End-to-End Service Bundle

Attracting Customers for more than just the Scooter, optimizing LTV through non-scooter revenue sources

The Offering

1 DUAL PRONGED STRATEGY

2 REINVENT BRAND POSITIONING

3 MONETIZE LIFE CYCLE

Provide free Service/ discounted Refurbishment upon Purchase of Used Numeros Motors.

Incentivize vehicle cash-in/Exchange during Purchase of Numeros Motors.

Master Sales

4 OMNI-CHANNEL APPROACH

- Start-Off with High Energy Organic Marketing
- Later transitioning to Ads on Prime, YT etc.
- Invest Heavily into Offline Events.

SEO YouTube

5 RELATIBILITY

- Post Behind-the-Door Factory Videos
- Founder's Journey
- Bloopers etc.

6 PERFORMANCE-BASED DEMO EXPERIENCES

- Use real-world challenge demos: hill-climb tests, heavy-load rides, pothole tracks.
- Demonstrate durability in a way competitors cannot match.

Expand

11 MODEL TO ACHIEVE PROFITABILITY AT SCALE

We suggest marketing the whole experience and post-sale features and services as part of the bundle, making it an un-detachable ecosystem. This drives higher lifetime value, enables recurring revenue through services, and improves margins without relying solely on vehicle sales volumes.

After-Sales Experience

10 MONITORING & ALERTS

Predictive alerts prevent issues before they occur.

9 FAST CHARGE EV-INFRA

- Battery-as-a-Service
- 8 Year 70% Battery Health Warranty

8 ON-ROAD SERVICE READINESS

7 NUMEROS NETWORK APP

Predictive Maintenance: Proactive alerts for part wear (e.g., brake pads) to prevent breakdowns and schedule service.

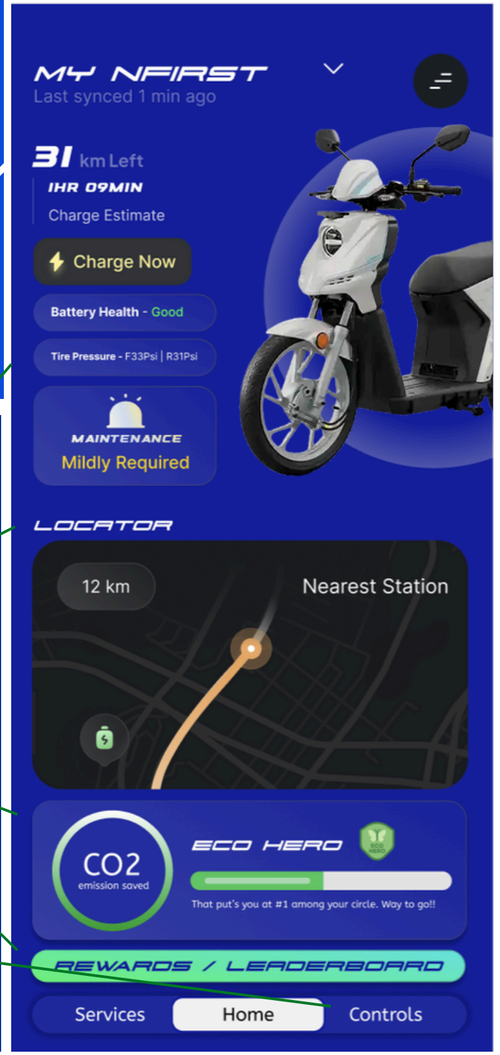

App-based map to find and use battery swaps, nearest charging stations and to locate your scooter.

"Campus Connect" Hub: Digital hub for students. Campus fleet test rides, locate your friends, local leaderboards and campus rewards, find safe parking, etc.

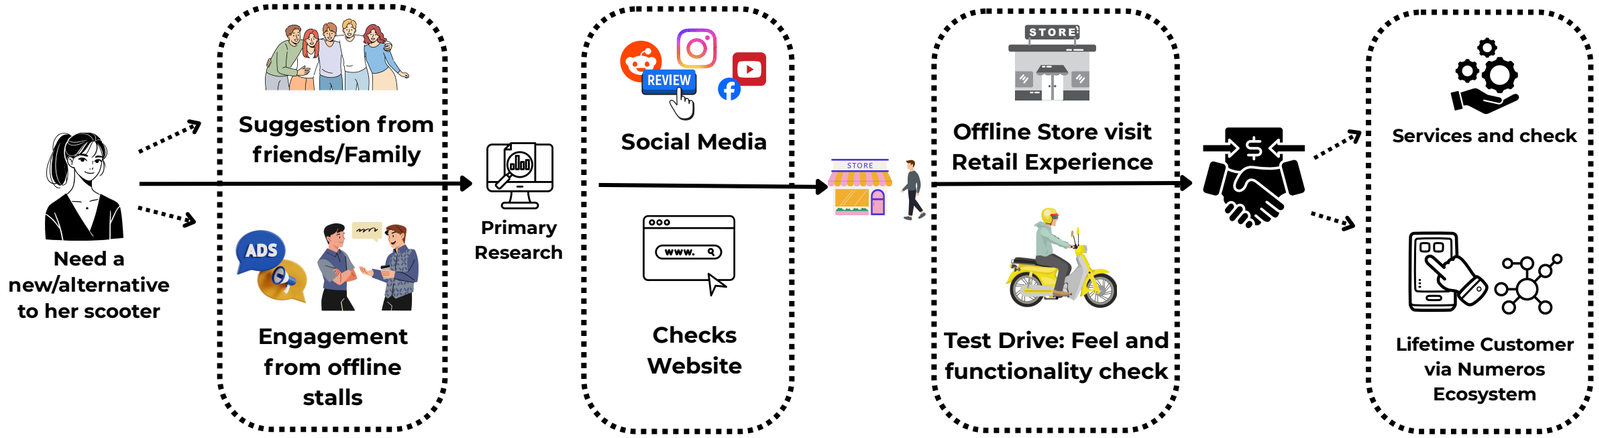

Gamification for environment friendly initiatives

"My First Vibe" Hub: Gamified User-Generated Content (UGC) campaign with "Ride-to-Unlock" rewards with cobranded companies.

"Guardian" Dashboard: One-tap parental controls for live location, speed limits, geofencing, and theft/tow alerts.

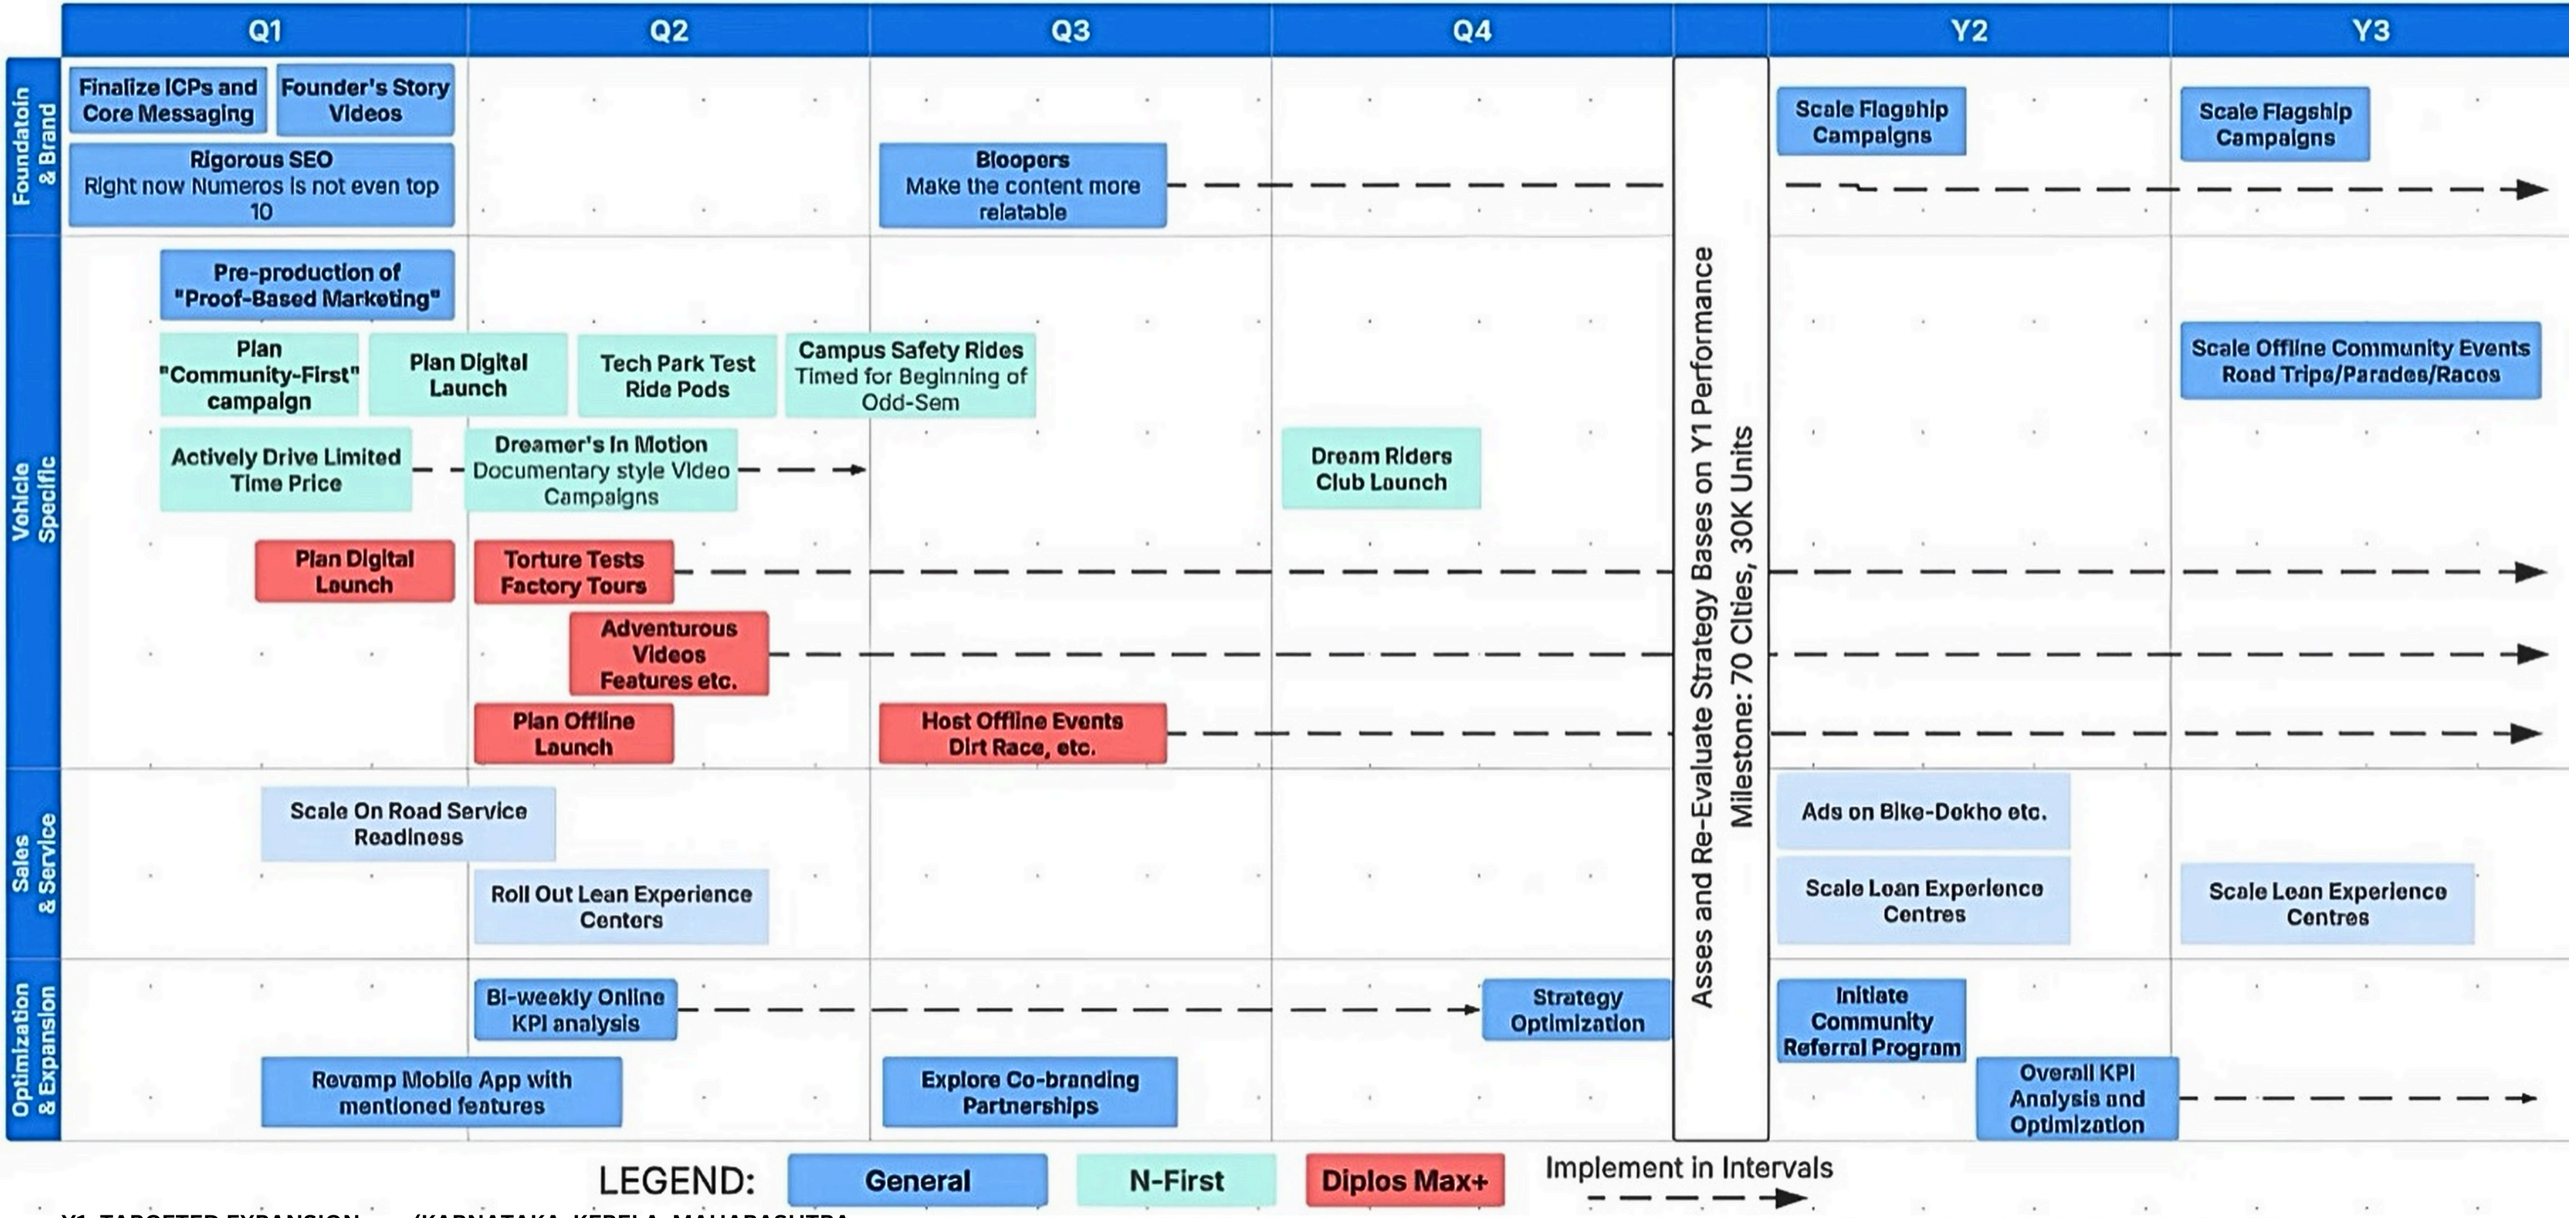

The User Journey

More than a Scooter, An Ecosystem

3 Yr Roadmap

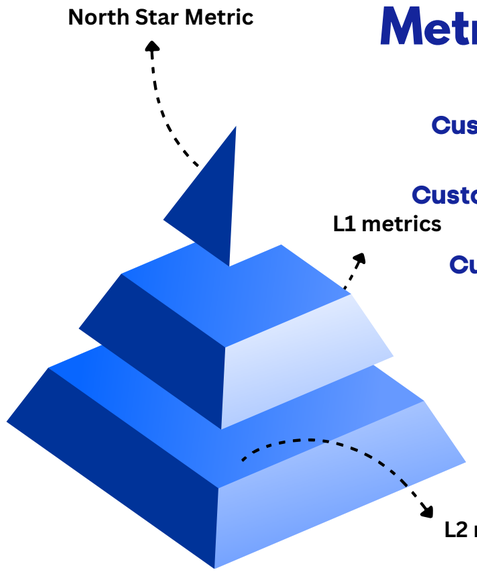

Y1: TARGETED EXPANSION IN TIER 1 CITIES OF SOUTH INDIA (KARNATAKA, KERELA, MAHARASHTRA, HARYANA, TAMIL NADU SHOW HIGHER ADOPTION RATES)

INITIALLY LOW INVESTMENT INTO ORGANIC MARKETING, FOCUS ON ORGANIC GROWTH AND INVEST LATER AFTER BUILDING A COMMUNITY

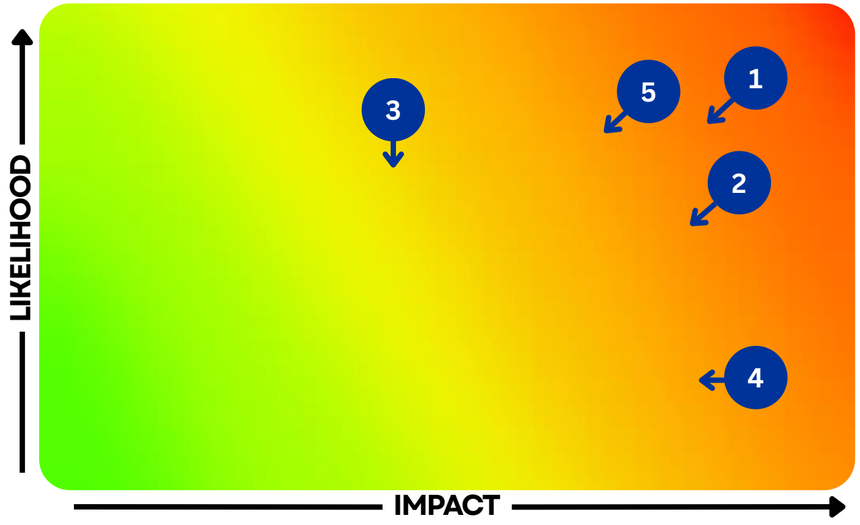

MEANWHILE MAINTAIN ORGANIC GROWTH AND AT LATER STAGES INVEST IN OFFLINE SUPPLEMENTS TO THE ORGANIC GROWTH

Customer Life Time Value and Key Performance Indicators

Metric/Priority	HIGH	MEDIUM	LOW
Customer Acquisition	Test Ride CTR	CAC	Brand Search Volume
Customer Engagement	Engagement rate	Content Share/Save Rate	CSAT
Customer Retention	LTV/CAC Ratio	NPS	Churn Rate
Operational KPIs	Service Uptime	Service TAT	Delivery Time
Financial KPIs	Unit Economics Payback	Extended Warranty Uptake	Discount % of Revenue
Marketing KPIs	Brand Recall	Share of Voice	Cost per Impression

Risk Mapping & Mitigation

	RISK	MITIGATION STRATEGIES
1	Competitor Price Wars	Avoid a direct fight. We will dominate B2B with Diplos Max+ (durability, TCO) and own the B2C "Safety/Stability" niche with n-First.
2	Two-Brand Resource Dilution	A phased rollout. Launch Diplos Max+ first to secure B2B cash flow, then use profits to fund the n-First B2C launch.
3	Organic Marketing Fails	Seed the content. Partner with B2B fleets for "torture test" videos and universities for "Campus Safety Rides" to generate initial user stories.
4	Safety or Quality Failure	Proactively market proof. Use the "Shadow-Certified" police partnership for n-First (safety) and public "Torture Test Videos" for Diplos Max+ (durability) to showcase confidence in the product.
5	Supply Chain Bottlenecks	Secure secondary suppliers. We will pre-qualify alternate vendors for critical components and offer long-term volume guarantees to our primary supplier in exchange for prioritized allocation.
